

THE LATEST NEWS FROM HILO.

Concert Given By the Misses Albu Largely Attended.

TEN INCHES OF RAIN IN TEN DAYS.

Great Shipping Activity In Hilo Bay—Social Matters Are On the Boom—Teachers' Union Meeting—Scarlet Fever Has Died Out in the District.

HILO, Feb. 12.—Our moist friend, Pluvius, is rather overdoing the benevolent act when his "beautiful rain" has just given us two or three glimpses of the sun since the new year was ushered in. For the first ten days in February the record is ten inches. The waterfront has felt the full force of the storm. One of Matson's lighters, filled with freight for the Hilo Sugar Company, had a very dangerous time in getting safely into the Waialuku river, where she was tied up three days as she could get back to the Lurline. A whale boat accompanying the scow was not so fortunate. After being overturned by the breakers she struck the scow with such force several times as to put her beyond the field of usefulness in this world. Fortunately, the men in the boat were good swimmers, so no serious results are to be recorded.

The entire Hilo freight ex Lurline was landed at Waialeale, where, in the roughest of weather, a good and safe landing can be made.

Hilo Bay recently presented a scene of more activity than it has for some time. Wilder Steamship Company's steamer Hawaii towing the Crockett out to sea; the Harvester coming howling in with fair wind, and the Kilauea Hou and brig Lurline safely anchored; lighters and towboat in the background.

ALONG THE WATERFRONT.

On Feb. 7th, after a stay of two months, the barkentine Crockett, Lund, commander, set sail for 'Frisco with a cargo of 23,334 bags of sugar, manufactured by Halaakau, Wainaku and Waialeale sugar companies.

The steamer Hawaii is loading sugar on brig Lurline.

Another vessel is expected from the Coast in about two weeks.

Capt. P. Johnson of the bark Harvester, from San Francisco, brought his vessel to a safe anchorage after a quick trip of twelve and one-half days. Part of the two thirds cargo with which she was filled was thirty-six nudes in prime condition, consigned to Onomea Sugar Company, Hilo, and A. Lidgate of Hamakua.

Mr. Wallace of the Kinu had one of the small bones in his leg broken while in a friendly wrestling bout with Capt. Fitzgerald of the Hawaii on the 9th inst., but he is about as though nothing had happened.

The Papaikou landing has been so rough this year that the steamers have been very unsuccessful in getting the Onomea Sugar Company's sugar. Warehouses, sugar room and all the available space being filled up, Mr. Goodale, the manager, was forced to order the mill shut down Saturday evening, the 10th inst., for want of storage room, there being 25,500 bags stored ready for shipment.

The bark Harvester brought one passenger, who worked his way down. The brig Lurline, Matson, commander, left Sunday morning, the 11th inst., for 'Frisco, with a full cargo of sugar—10,175 bags and one Portuguese passenger in the steerage.

SOCIAL GLEANINGS.

The gloom hanging over Hilo was dispelled Friday evening the 2d inst., by Mr. and Mrs. J. R. Wilson inviting a number of friends to their home to play progressive euchre. Notwithstanding a stormy night, with few exceptions all responded to the invitation and were rewarded with a thoroughly enjoyable time.

Mrs. H. C. Austin after a stubborn contest carried off the first prize—a handsome book mark.

A "consolation prize"—a pack of cards with the motto "practice makes perfect," was presented to Mr. Curtis. The following named were present: Mr. and Mrs. J. R. Wilson, Mrs. V. H. Curtis, Mrs. J. Richardson, Mrs. E. W. Barnard, Mrs. Turner, Mrs. Baldwin, Mr. and Mrs. H. C. Austin, Mr. and Mrs. W. Hardy, Mr. and Mrs. A. G. Curtis, Mr. and Mrs. E. E. Richards, Mr. and Mrs. L. A. Blonde, Miss R. Daniels, Miss E. Alsip, Messrs. Chas. Matson, N. C. Wilfong and Dr. Nichols.

Mr. Young, Miss Alsip and the Misses Young have returned from the Volcano and report Madame Pele to be in a very angry mood. They descended into the pit, but dared not go near the lake on account of the numerous overflows.

Mr. Young and his daughters expected to take the steamer Hall and stop off at Mahukoua to visit Kohala, but on account of the rough weather they abandoned the trip by the Hall, and go to Kohala from Hilo per steamer Kinu, leaving this morning, the 12th.

The pedagogic part of the community held a meeting at the Union School on February 5, and the following programme was carried out: Minutes of last meeting read by the secretary, Miss H. Coan; Miss Lyman, with class reading; Mr. L. E. Ray, lesson in Tonic Sol Fa; Miss Severance, paper on Pestalozzi; Mr. W. Ray, paper on School Management; Miss H. Hitchcock, class on Liquid Measure; answers to questions from question box.

Miss Lyman's class performed their task more than well and reflected much credit on their teacher.

This is the second meeting of the Hilo Teachers' Union, the third is to take place May 5. Much benefit is derived by the teachers from this interchanging of ideas, and it meets with the hearty approval of the Board of Education. The Court House hall was comfortably filled the 10th inst. to hear the Misses Albu sing. Each number was

enthusiastically applauded, and graciously acknowledged by the sisters with another song. Miss Grace Porter played the accompaniments for them on the piano in a very creditable manner.

Apropos of music—Prof. Yandley's Hilo friends are glad to hear that he has returned to the Islands and hope ere long, that he will pay us a visit.

With our inch of rain a day, it has failed to dampen the ardor of Dr. Nichols over his coffee plantation. He goes out to Olua in the thick of it and returns as merry as a lark.

Mrs. Dr. La Blonde has deserted Olua. Her shingle is out on the once called "Coney House," much to the satisfaction of believers in homeopathic pills and practice.

Hilo is entirely free from scarlet fever. No new cases, and the old ones cured and at liberty. The week just closed has a total of three new cases in the country, one at Wainaku, one at Papaikou and one at Pepekeo—all Portuguese children between seven and ten years of age.

HAMAKUA NOTES.

HONOKAA, Feb. 8th.—The sea continues as rough as ever, this morning it appeared a little calmer and the Waialeale left her safe anchorage at Waipio and was at the Honokaa landing by 7:30 A. M. She sent a few boats ashore but after landing their cargo, one was dashed to pieces on the rocks while trying to get back to the steamer. When the catastrophe was apparent and nothing could be done to avert it, three of the five boatmen jumped into the foaming sea, while the remaining three men were dashed on the rocks but luckily escaped back to the ship with only a few slight injuries.

No freight was lost. The Waialeale did not again attempt to land, and left a little while after Honolulu.

Hataishi an ex-contrast man of the Honokaa Sugar Co., was arrested last Monday for peddling without a license. He was released on \$25 bail, but on Wednesday did not appear and consequently forfeited his bail.

The rain has come down as usual during the "slumbering night," but today it has rained all day, at 7 P. M. it is still raining and will continue so, probably to the end of the week. Our main street is a pool of water from one end to the other, and the oil clothing in the different stores nearly all sold.

The wind has abated for the past two days. The Inter-Island Steamship Company has our sympathy in the loss of their steamer C. R. Bishop. She plied between this and other Hamakua ports from 1882 to almost 1886, and with the exception of the Kinu was our only means of outside communication.

Our Kinu mail arrived this morning nearly three hours after time. No foreign mail was expected, and people were surprised to hear there was one. Mr. M. V. Holmes left by the Lehua from Panahau. He expected to leave Honolulu for San Francisco by the Alameda. He left for the Coast principally to visit his parents in California. While there he will pay a brief visit to the Midwinter Fair. After transacting some business, he will return to these Islands sometime next month.

Mr. Joseph Weston is in charge of his business during his absence. Mrs. Kanti Lomahelhi is in town for a short visit.

The Read Board paid off on the 5th inst.

HONOKAA, Feb. 12th.—The rain has ceased and high winds prevailed during the forenoon.

The sea is still more agitated, the great waves breaking over the rocks and sending clouds of spray over cliffs 300 or 400 feet high.

The Lehua arrived at Panahau on Friday, but could not send a boat either to land the passengers or mail. She had to steam to Waipio and has remained there since. The Claudine did not come.

The Waialeale is expected to-morrow. It is hoped she will be able to land her freight. The stores are all run short of many an article of food and personal comfort.

Mr. R. T. Rickard will leave this week for Kona overland via Kawaihae.

Two Japanese were arrested yesterday for working on Sunday. They were both released on depositing \$10 bail each. Their cases will be tried today.

Rev. Father Paul Raulin celebrated two masses at St. Stephen's at Kukuihaele.

Waipio rice is quoted at \$5 a hundredweight.

The Kinu mail leaves today at 9 P. M. for Kawaihae to board the Kinu at the above named port.

There is no important news, except the rather startling information that Paul of Paul's. Wilson fame is an amateur pugilist. Does Paul intend to challenge Corbett or defeated English Mitchell?

UNFIT TO RULE.

A Newspaper Man's Opinion of Ex-Queen Liliuokalani.

WASHINGTON, Jan. 31.—C. L. MacArthur, editor of the Troy (N. Y.) Budget, was before the Senate Hawaiian Investigation Committee today. He went to Honolulu in March for the purpose of investigating the situation. He told the committee he went there prepossessed in favor of the queen, but came away entirely convinced that the revolution was justified and that the queen was unfit to rule the Islands. MacArthur was on the Islands at the time Blount was there and stopped at the same hotel with him. He declared Blount's report was a perversion of facts as he had gathered them, and also pronounced absurd the story of the Stevens conspiracy. MacArthur criticized Blount's method of getting information and declared that the most ordinary newspaper man would have gone into the subject far more thoroughly.

A NEW VERSION

For Older Children, of a World-Famous Nursery Rhyme.

This is the league that Tim built.

This is the nut
That lay in the shell
Of the beautiful league that Tim built.

This is the annexation club,
That cracked the shell,
That contained the nut,
Of the beautiful league that Tim built.

This is a resolution dire,
That should have been put on top of the fire,
That was passed by the annexation club,
That cracked the shell,
That held the nut,
Of the beautiful league that Tim built.

This is an editor, full of schemes,
Who, in the midst of nightly dreams,
Evolved the resolution dire,
That should have been laid on top of the fire,

That was passed by the annexation club,
That cracked the shell,
That held the nut,
Of the beautiful league that Tim built.

This is a mass meeting, which was run
By the only editor under the sun,
Who, being full of wonderful schemes,
Evolved, in the midst of nightly dreams,

This wonderful resolution dire,
That should have been put on top of the fire,
But was passed by the annexation club,
That cracked the shell,
That held the nut,
Of the beautiful league that Tim built.

This is a Council, which will be seen,
To still retain the number fourteen,

In spite of the mass meeting which was run,
By the only editor under the sun,
Who, being full of wonderful schemes,
Evolved, in the midst of nightly dreams,
This wonderful resolution dire,
That should have been put on top of the fire,
And was passed by the annexation club,
That cracked the shell,
That held the nut,
Of the beautiful league that Tim built.

KILAUEA IN CONVULSIONS.

The Lake Has Spread Many Feet Above its Late Level.

Latest reports from Kilauea by the steamer Kinu, show that the fire lake has risen many feet above the level of the late point of observation, and is actively flooding the upper floor of Kilauea crater. The outpour of lava is profuse, and has already buried all the old surfaces within a quarter of a mile northward. The activity is intense. The later visitors were able to reach the edge of the lake, but were not permitted to visit it by night on account of the danger from overflows. It rained all the time, and the crater was filled with steam.

DO YOU FEED THE BABY?

The Skin needs no... If the complexion is sallow, rough, scaly, pimply, it is because it is not fed with

LOLA MONTEZ CREME

The Skin Food and Tissue Builder, positively the only safe and reliable article for the complexion. Absolutely harmless, opens the pores, increases the natural and necessary secretions of the skin.
